No one outruns X-7

It is a critical moment in the struggle between the Rebels and the Empire: The Force itself hangs in the balance, and all the hopes of the galaxy depend on the adventures of Luke Skywalker, Princess Leia, Han Solo, and a host of other heroes.

The Death Star has been destroyed. But back at the Rebel base, the celebration is over. The Alliance has intercepted a coded transmission, indicating that the Empire is determined to discover which pilot was responsible for the destruction of the Death Star. New security protocol is in effect: The details of the Death Star mission are now top secret, and no one is to know that Luke fired the decisive shot. But that's hardly the Alliance's only problem. The Empire's top assassin is now hunting for them! Can Luke stay ahead of certain death?
